

Complete Professional Background Forthcoming

Keith Hearn, Development Delivery Manager

Keith is an experienced product and delivery leader with a strong foundation in user experience and digital transformation. With over 15 years of experience across startups, agencies, and enterprise organizations, he specializes in aligning cross-functional teams to deliver scalable, user-centered solutions.

At the core of Keith's approach is a deep commitment to collaboration and clear communication—from stakeholder alignment to sprint execution. Prior to this role, he led major UX and product initiatives for companies in healthcare, real estate, and technology, driving measurable outcomes through agile methodologies and thoughtful design.
